ASUGGESTION.

There is no use disguising the fact that capitalists and manufacturers are looking in the direction of Northern Minnesota for investment and location, and sooner or later it will become the greatest manufacturing centre of the Northwest. Brainerd comes in for her share of the additional wealth and with the undeveloped country to the north of us, rich in hardwood timber of every description, and vast forests of standing pine, will eventually outstrip all competitors. Letters from various sources are being received daily inquiring as to advantages and the chances of getting good sites for building and water power. One letter in particular, of more than ordinary interest, comes from a Michigan manufacturing concern, the name and present location of which is kept quiet for various reasons. This institution employs 500 hands and the letter, which was seen and read by the writer, asks what inducements will be offered to them, and also if the city affords water works and electric lights. Brainerd has these requirements and she will not be backward in making advantageous offers to the institution, if we mistake not. The gentlemen making the inquiry appear to be interested in regard to taxation, and it is with considerable pride that we can point to the fact that no tax was levied for city purposes for the coming year. Aside from this the city government will probably be willing to make concessions in regard to taxation for a term of years. What ought to be done, and that immediately, is for the board of trade to get together and make a few plans for concerted action. A good idea would be to hire one or two gentlemen of ability, and send them to Michigan among the great wood working industries to show up the advantages we possess. Armed with authority to make contracts and offer inducements, a venture of this kind would be more productive of good to the welfare of Brainerd than any means that could be devised, and would more than repay the outlay of money. Something should be done to get our advantages before the manufacturing centres of other states where business men are looking for new locations in order to accommodate their industries and better their conditions.

Ed. Gottry, of the Pine County Pioneer, has purchased the opposition paper in his county.

A Dakota blizzard has failed for \$1275. The blizzard was a newspaper doing business at Elk Point.

Fargo's leading hotels threaten to close immediately on the inauguration of local option which goes into effect January 1st.

The Motley Register claims that over fifty actual settlers have taken homesteads in that immediate vicinity during the past two months.

The freight and passenger business of the Northern Pacific road in Brainerd alone amounts to \$18,000 per month, or \$216,000 per year.

The sheriff of Polk county was indicted by the grand jury last week for collecting fees he had no right to claim. Take it all 'round this has been a bad year for sheriffs.

The Chicago Mail, an authority on such matters, states that there is no law prohibiting the mailing of letters on trains or prohibiting route agents from cancelling the stamps. This will be a relief to many people.

Senator Davis is chairman of the committee on pensions while Senator Sabin is chairman of the committee on railroads and also a member of the committee on agriculture and manufactures. The Minnesota senators seem to fare pretty well.

Probably the largest yoke of oxen in the world were on exhibition at the Eastern Maine state fair. They were raised in Vermont, and measure ten feet in girth, and actually weighed 7,000 pounds. It cost to raise them up to their great weight over \$7,000.

The railroad commissioners' mandate to the various agents along the N. P. lines does not seem to have borne much fruit, as tickets are still being sold at the old rate. Every agent refusing to comply with the request of the commission are liable to arrest and imprisonment or fine, on conviction, under the state law.

Several gentlemen of this city clubbed together and sent to Duluth for a car load of coal some weeks ago. A Brainerd dealer happened to be in the office when the order was received, and called the coal merchant's attention to the fact that if he sold any more coal to private parties in Brainerd he would stop buying of him. This settled the matter and the order was returned saying that they could not fill it.

MAMMOTH SAW MILLS

To be erected at Brainerd by the Northern Pacific Railroad Company.

The Minneapolis Star-News of Tuesday says:

It is rumored to-day that the Northern Pacific railroad company has closed a deal with the Brainerd Water Power company for a site for a saw mill to be erected there, and that the Northern Pacific will build at once one of the largest saw mills in the country and cut their own lumber for the use of the entire road.

The officials are very reticent on the subject, but neither deny nor affirm anything concerning the rumor.

Another report asserts that the company have withdrawn all of their pine lands in Minnesota, tributary to the Mississippi, from the market. If this be true, the probabilities are strongly in favor of the acceptance of the site as reported.

C. F. Kindred, president of the Brainerd water power company, verifies the announcement made exclusively in this paper on Tuesday, that the Northern Pacific company were going to build a mammoth saw mill at that place, and cut their own lumber. He says that the contract has been prepared and agreed upon and only awaits the signatures of the contracting parties to become final and binding. He also confirms the report that the Northern Pacific company have withdrawn their pine lands from the market.—Star-News, Thursday.

An unknown man was run over at Frazee yesterday by six trains before his body was discovered.

St. Cloud's water power turned its first wheel yesterday, that of the new flouring mill just completed.

A frightful flood occurred in China recently, news of which has just been received, by which a million people have lost their lives, and thousands of others are starving and homeless. The flood was caused by the Huang Ho river overflowing its banks and is one of the most appalling occurrences in the record of the world, the flood covering an area of 7,000 square miles.

RARE TRAITS DISCOVERED.

Knut Nelson is doubtless somewhat of a political genius. A few months ago he was heartily disgusted with politics, and could not have been induced to accept any office in the gift of the people. Of late, straws seem to indicate that the wind has shifted. The representative of the "bloody fifth" has endorsed Cleveland's message, and the democratic press, simultaneously with such endorsement, has discovered rare traits of statesmanship in the Honorable Knute.

Well, all things are possible, and it would not be at all impossible to see Knute Nelson reposing serenely in McGill's chair before many moons.—Star.

At Night always have Soother at hand. It is the only safe medicine yet made that will remove all infantile disorders. It contains no Opium or Morphia, but gives the child natural ease from pain. Price 25 cents. Sold by John & Johnson & Bain.

NOVEL CALENDAR.

We have received from the Pope Manufacturing Co., of Boston, Mass., a unique calendar for 1888. The pad rests upon a portable stand, and when placed upon the desk or writing-table the entire surface of the date leaf is brought directly, and left constantly, before the eye, furnishing date and memoranda, impossible to be overlooked. Upon each slip appear, as in the previous Columbia calendars, quotations pertaining to cycling from leading publications and prominent writers.

Save the Children. They are especially liable to sudden Colds, Coughs, Croup, Whooping Cough, etc. We guarantee Acker's English Remedy. It cures them in hours of anxious watching. Sold by John & Johnson & Bain.

THE MINNEAPOLIS TRIBUNE CO.

Offers extra inducements for a brief season for subscribing for their Weekly issue.

The premium list is almost varied enough to meet all wants, and no sham articles are offered or sold.

If you want a Watch, Sewing Machine, Pair of Scales, or Books of any description, send for premium list.

ON reliable Medicines are the best. Acker's Blood Elixir has been prescribed for years for all impurities of the Blood, in every form of Scrofula, Syphilis, or Mercurial diseases, it is invaluable. For Rheumatism, has no equal. Sold by John & Johnson & Bain.

GIVE THEM A CHANCE.

That is to say, your lungs. All so all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

W n these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, or consumption, or any of the family throat or nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Don't trifle with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50c. Sold by John & Johnson & Bain.

not been equalled in the States. The
directors at their last meeting decided to

credit to the city, a benefit to its stock-
holders and offers safe investments for

Arthur Lloyd died at the Sanitarium
Saturday last of consumption. The de-
ceased had been unable to work for over
a year and a half, and during that time
had been to Florida and other places for
treatment and change of climate, but
without avail. He was a member of the
Brotherhood of Firemen, and a respected
young man. The remains were taken to
Zumbrota by Geo. LeBar and a brother
of the deceased where the burial took
place, it being his last request.
Last evening in a row at Kelleher's
saloon, Dave Delaney, a half breed, bit
a large chunk from another half breed's
face and also chewed his thumb. Im-
mediately after the fracas Delaney made
himself scarce and the officers were un-
able to find him. The fellow who was
the "under dog in the fight" was roam-
ing around among the business places
trying to buy a revolver, but his bloody
face and general appearance kept him
from securing the weapon with which he
desired to rid the face of the earth of
Delaney. The latter named fellow
boarded and outgoing freight and went
to N. P. Junction. The is a reward of
\$25 offered for him for escaping from
Gus Beaulieu at Moorhead.

Death of Mrs. Holmes.

Mrs. Wilmar Holmes died at her re-
sidence on Sixth street north, Saturday
morning, of a bright fever, after a
lingering illness of many months. Some
three months ago the deceased lady was
supposed to have been cured by faith,
and arose from her bed at a time when
death might have been expected at any
moment. Rev. S. White and Mrs. Col-
vin were her attendants at the time, and
Mrs. Holmes so far recovered as to go to
Gull River, besides being able to attend
to her duties at home. But she suffered
a relapse shortly afterward, and grew
worse until her death. The funeral ser-
vices were conducted by Rev. Wood Sun-
day afternoon at the Methodist church,
she having been a member of that
denomination. A husband and an in-
fant daughter are left to mourn her early
death.

Died of His Injuries.

Henry Rittenrath, who was injured on
the Northern Pacific road some two
months ago, died at the Sanitarium Sun-
day of blood poisoning. At the time of
the accident Mr. Rittenrath was in the
employ of the company and was working
at Jonesville, plastering the section
house. In making their trips to and
from their work the men were given a
hand-car to get over the road with. On
going out the third morning during a
heavy fog they were run into by a freight
train and Mr. Rittenrath sustained serious
injuries, having his right limb broken in
two places. The deceased was a re-
spected citizen, having resided in Brainerd
six years, during the greater part of
which time he had worked for H. C.
Miller, the contractor. A wife and three
children are left without the protecting
care of a husband and father, and are in
limited circumstances.
The Germania Verein have taken the
matter in hand and are getting up a
benefit ball to take place on the evening
of December 31st, the entire proceeds of
which will be given to the family. Every
citizen who can spare one dollar should
purchase a ticket whether intending to
participate or not, as the cause is a good
one and a dollar for charity's sake will
never be misused. The Germania Verein
are to be headed in their benevolent
work and it is expected that the public
will lend a helping hand in the matter.

A Reply to Mrs. Veon.

EDITOR DISPATCH.—I wish to say just
a word in reply to Mrs. C. J. Veon's com-
munication of last week. I made no mis-
take, neither are any conclusions erro-
neous, as that lady alleges. Ordinarily
Mrs. Veon's conclusions on questions of
law would be, I presume, more correct
than my own. It so happens, however,
that in our understanding of the attorney
general's opinion as to whether any
PARTICULAR text-book MUST be used, we
agree perfectly. Certainly the recom-
mendation made by the commissioners of
a text-book to be studied, are
only advisory, and school boards are free
to adopt and use any book they like. No-
body disputes this. But this is not the
point. This same law requires that
SYSTEMATIC and REGULAR instruction shall
be given in physiology, hygiene, etc.
The attorney general says that some text-
book must be used, and that each district
may choose its own book. Now, in view
of all this, the important question with
me, is how is this uniformity and regu-
larity to be secured? Is it by induc-
ing into our schools as many different
kinds of books as there are school board?
Uniformity in text-books and uniformity
in instruction go hand in hand. I said
the books which the commissioners have
recommended are to be—not must be—
used. And I still think it better and
more in accordance with the spirit of this
law to follow the advice of the commis-
sioner rather than create a confusion in
the matter by using other books, al-
though they may be just as good in point
of merit. But if the law means nothing,
and no uniformity or regularity are de-
sired, school officers are at liberty to
adopt the books recommended by the P.
S. Q. G. Y. X., or any other society.
Yours Truly,
W. A. FLEMING.

ROGAN.—At his residence in East Brainerd,
Monday night, Dec. 12th, 1887,
John Rogan, aged 53 years.
The deceased came to this city in the
spring of 1882, from Boone, Iowa, of
which city he had been a resident a
number of years. He was a better maker
by trade, and had been foreman of the
railroad boiler works at Boone previous
to his removal from that city, and had
also been a member of the city council.
His health failed him and he came north
to this city where he engaged in business
and was doing well when he lost his eye
sight and was totally blind for about two
years. A surgical operation, however
restored to him his sight some six
months ago. He died after a short ill-
ness, of heart disease. Mr. Rogan was a
kind hearted man, a good neighbor, and a
constant Christian. He leaves a wife,
two daughters and four sons. De-
ceased was a native of Ireland and 53
years of age.

For Grand Larceny.

C. D. Herbert was this morning ar-
rested on the charge of grand larceny,
preferred by his wife; he is accused of
stealing a watch and chain and other
jewelry belonging to her. There has
been trouble between the two for some
time which resulted in their separating
yesterday.—Mankato Special.
Mr. Herbert formerly lived in Brainerd
and was proprietor of the saloon now
owned by Frost & Kelleher.
A later telegram says: Mr. C.
D. Herbert, who was arrested
Wednesday evening upon a war-
rant sworn out by his wife for
larceny, was released this morning,
his wife having withdrawn her
charges. It seems that the cause
of this affair was due to family
troubles. Wednesday afternoon
they separated. Mr. Herbert taking
with him his little boy. His wife
also wanted the boy, but he would
not release him. The boy accom-
panied his father to jail, and this
morning Mrs. Herbert appeared at
the jail, and the boy consented to
go with her, whereupon she with-
drew her charges and her husband
was discharged.

J. P. McLaughlin, secretary of the co-

has the following to say of the Crow
Wing county co-operative farm to a re-

Several years ago a number of us,
as individuals, formed a land association,
which was incorporated. We purchased
considerable land, and agreed to start a
co-operative colony some time. But it
was to be entirely distinct from the
organization of the K. of L. We never
got around to do anything, however, and
finally these colonists came to us and
asked if they could use the land. We
told them to form their company and go
ahead, and they did. But we guaranteed
them no support, and had absolutely no
official connection with them. So when
they wrote me a letter, announcing that
they intended to leave, I could do nothing
but let them go. I was not manager.

Cut this out and return to us and we will send you free something of great value and importance to you, that will bring you in more money than anything else you can do. Write to us at once for full particulars, which we mail free. Address: **Johnson & Bain, Portland, Maine.**

DEEP forms, but are surpassed by the marvel of invention. Those who are in need of profitable work that can be done while living at home should at once send their address to Hallett & Co., Portland, Maine, and receive free, full information, how either sex, of all ages, can earn from \$1 to \$25 per day and upwards wherever they live. You are started free. Capital not required. Some have made over \$20 in a single day at this work. All succeed.

ASUGGESTION.

There is no use disguising the fact that capitalists and manufacturers are looking in the direction of Northern Minnesota for investment and location, and sooner or later it will become the greatest manufacturing centre of the Northwest. Brainerd comes in for her share of the additional wealth and with the undeveloped country to the north of us, rich in hardwood timber of every description, and vast forests of standing pine, will eventually outstrip all competitors.

Letters from various sources are being received daily inquiring as to advantages and the chances of getting good sites for building and water power. One letter in particular, of more than ordinary interest, comes from a Michigan manufacturing concern, the name and present location of which is kept quiet for various reasons. This institution employs 500 hands and the letter, which was seen and read by the writer, asks what inducements will be offered to them, and also if the city affords water works and electric lights. Brainerd has these requirements and she will not be backward in making advantageous offers to the institution, if we mistake not. The gentlemen making the inquiry appear to be interested in regard to taxation, and it is with considerable pride that we can point to the fact that no tax was levied for city purposes for the coming year. Aside from this the city government will probably be willing to make concessions in regard to taxation for a term of years. What ought to be done, and that immediately, is for the board of trade to get together and make a few plans for concerted action. A good idea would be to hire one or two gentlemen of ability, and send them to Michigan among the great wood working industries to show up the advantages we possess. Armed with authority to make contracts and offer inducements, a venture of this kind would be more productive of good to the welfare of Brainerd than any means that can be devised, and would more than repay the outlay of money. Something should be done to get our advantages before the manufacturing centres of other states where business men are looking for new locations in order to accommodate their industries and better their conditions.

Ed. Gottry, of the Pine County Pioneer, has purchased the opposition paper in this county.

A Dakota blizzard has failed for \$12.75. The blizzard was a newspaper doing business at Elk Point.

Fargo's leading hotels threaten to close immediately on the inauguration of local option which goes into effect January 1st.

The Motley Register claims that over fifty actual settlers have taken homesteads in that immediate vicinity during the past two months.

The freight and passenger business of the Northern Pacific road in Brainerd alone amounts to \$18,000 per month, or \$216,000 per year.

The sheriff of Polk county was indicted by the grand jury last week for collecting fees he had no right to claim. Take it all round this has been a bad year for sheriffs.

The Chicago Mail, an authority on such matters, states that there is no law prohibiting the mailing of letters on trains or prohibiting route agents from cancelling the stamps. This will be a relief to many people.

Senator Davis is chairman of the committee on pensions while Senator Sabin is chairman of the committee on railroads and also a member of the committee on agriculture and manufactures. The Minnesota senators seem to fare pretty well.

Probably the largest yoke of oxen in the world were on exhibition at the Eastern Maine state fair. They were raised in Vermont, and measure ten feet in girth, and actually weighed 7,000 pounds. It cost to raise them up to their great weight over \$7,000.

The railroad commissioners' mandate to the various agents along the N. P. lines does not seem to have borne much fruit, as tickets are still being sold at the old rate. Every agent refusing to comply with the request of the commission are liable to arrest and imprisonment or fine, on conviction, under the state law.

Several gentlemen of this city clubbed together and sent to Duluth for a car load of coal some weeks ago. A Brainerd dealer happened to be in the office when the order was received, and called the coal merchant's attention to the fact that if he sold any more coal to private parties in Brainerd he would stop buying of him. This settled the matter and the order was returned saying that they could not fill it.

MAMMOTH SAW MILLS

To be Erected at Brainerd by the Northern Pacific Railroad Company.

The Minneapolis Star-News of Tuesday says:

It is rumored to-day that the Northern Pacific railroad company has closed a deal with the Brainerd Water Power company for a site for a saw mill to be erected there, and that the Northern Pacific will build at once one of the largest saw mills in the country and cut their own lumber for the use of the entire road.

The officials are very reticent on the subject, but neither deny nor affirm anything concerning the rumor.

Another report asserts that the company have withdrawn all of their pine lands in Minnesota, tributary to the Mississippi, from the market. If this be true, the probabilities are strongly in favor of the acceptance of the site as reported.

C. F. Kindred, president of the Brainerd water power company, verifies the announcement made exclusively in this paper on Tuesday, that the Northern Pacific company were going to build a mammoth saw mill at that place, and cut their own lumber. He says that the contract has been prepared and agreed upon and only awaits the signatures of the contracting parties to become final and binding. He also confirms the report that the Northern Pacific company have withdrawn their pine lands from the market.—Star-News, Thursday.

An unknown man was run over at Frazee yesterday by six trains before his body was discovered.

St. Cloud's water power turned its first wheel yesterday, that of the new flouring mill just completed.

A frightful flood occurred in China recently, news of which has just been received, by which a million people have lost their lives, and thousands of others are starving and homeless. The flood was caused by the Huang Ho river overflowing its banks and is one of the most appalling occurrences in the record of the world, the flood covering an area of 7,000 square miles.

Well, all things are possible, and it would not be at all impossible to see Knute Nelson reposing serenely in McGill's chair before many moons.—Star.

That is to say, your lungs. All so all your breathing machinery is. Very wonderful machinery it is. Not only the throat and windpipes, but the thousands of little tubes and cavities leading from them.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family throat or nose and head and lung obstructions, all are bad. All ought to be got rid of. The regular monthly meeting of the
building association was held Saturday
last. The association is in a very flour-
ishing condition, and as it is a local in-
stitution with its capital invested in
Brainerd property, the city feels justly
proud of its success, which has probably
not been equaled in the States. The
directors at their last meeting decided to
issue 2,500 shares of the third series of
stock which will be for sale during the
next thirty days. The association is a
credit to the city, a benefit to its stock-
holders and offers safe investments for
men of moderate means.

Arthur Lloyd died at the Sanitarium
Saturday last of consumption. The de-
ceased had been unable to work for over
a year and a half, and during that time
had been to Florida and other places for
treatment and change of climate, but
without avail. He was a member of the
Brotherhood of Firemen, and respected
young man. The remains were taken to
Zumbrota by Geo. LeBar and a brother
of the deceased where the burial took
place, it being his last request.

Last evening in a row at Kelleher's
saloon, Dave Delaney, a half breed, hit a
large chunk from another half breed's
face and also chewed his thumb. Im-
mediately after the fracas Delaney made
himself scarce and the officers were un-
able to find him. The fellow who was
the "under dog in the fight" was roam-
ing around among the lounging places
trying to buy a revolver, but his bloody
face and general appearance kept him
from securing the weapon with which he
desired to rid the face of the earth of
Delaney. The latter named fellow
boarded and outgoing freight and went
to N. P. Junction. The is a reward of
\$25 offered for him for escaping from
Gus Beaulieu at Moorhead.

Death of Mrs. Holmes.

Mrs. Wilmar Holmes died at her re-
sidence on Sixth street south, Saturday
afternoon, of bright disease, after a
lingering illness of many months. Some
three months ago the deceased lady was
supposed to have been cured by faith,
and arose from her bed at a time when
death might have been expected at any
moment. Her S. White and Mrs. Col-
vin were her attendants at the time, and
Mrs. Holmes so far recovered as to go to
Gull River, besides being able to attend
to her duties at home. But she suffered
a relapse shortly afterward, and grew
worse until her death. The funeral ser-
vices were conducted by Rev. Wood Sun-
day afternoon at the Methodist church,
she having been a member of that
denomination. A husband and an in-
fant daughter are left to mourn her early
death.

Died of His Injuries.

Henry Riffenrath, who was injured on
the Northern Pacific road some two
months ago, died at the Sanitarium Sun-
day of blood poisoning. At the time of
the accident Mr. Riffenrath was in the
employ of the company and was working
at Jonesville, plastering the section
house. In making their trips to and
from their work the men were given a
hand-car to get over the road with. On
going out the third morning during a
heavy fog they were run into by a freight
train and Mr. Riffenrath sustained serious
injuries, having his right limb broken in
two places. The deceased was a re-
spected citizen, having resided in Brainerd
six years, during the greater part of
which time he had worked for H. C.
Miller, the contractor. A wife and three
children are left, without the protecting
care of a husband and father, and are in
limited circumstances.

The Germania Verein have taken the
matter in hand and are getting up a
benefit ball to take place on the evening
of December 31st, the entire proceeds of
which will be given to the family. Every
citizen who can spare one dollar should
purchase a ticket whether intending to
participate or not, as the cause is a good
one and a dollar for charity's sake will
never be missed. The Germania Verein
are to be lauded in their beneficent
work and it is expected that the public
will lend a helping hand in the matter.

A Reply to Mrs. Veon.

EDITOR DISPATCH—I wish to say just a
word in reply to Mrs. C. J. Veon's com-
munication of last week. I made no mis-
take, neither are my conclusions erro-
neous, as that lady alleges. Ordinarily,
Mrs. Veon's conclusions are correct, but
in this case they are not. It so happens, however,
that in our understanding of the attorney
general's opinion as to whether any
PARTICULAR text-book must be used, we
agree perfectly. Certainly the recom-
mendation made by the commissioners of
a suitable text-book to be studied, are
of only advisory, and school boards are free
to adopt and use any book they like. No-
body disputes this. But this is not the
point. This same law requires that
SYSTEMATIC and REGULAR instruction shall
be given in physiology, hygiene, etc.
The attorney general says that some text-
book must be used, and that each district
may choose its own book. Now, in view
of all this, the important question with
me is, how is this uniformity and regu-
larity to be secured? Is it by introduc-
ing into our schools as many different
kinds of books as there are school boards?
Uniformity in text-books and uniformity
in instruction go hand in hand, I send
the books which the commissioners have
recommended are to be—not must be—
used. And I still think it better and
more in accordance with the spirit of this
law to follow the advice of the commis-
sioners rather than create a confusion in
the matter by using other books, al-
though they may be just as good in point
of merit. But if the law means nothing,
or no uniformity or regularity are de-
sired, school officers are at liberty to
adopt the books recommended by the P.
S. Q., G. Y. X., or any other society.

Yours Truly,
W. A. FLEMING.

Obituary.

ROGAN.—At his residence in East Brainerd,
Monday evening, Dec. 12th, 1887,
John Rogan, aged 53 years.

The deceased came to this city in the
spring of 1882, from Boone, Iowa, of
which city he had been a resident a
number of years. He was a better maker
by trade, and had been foreman of the
railroad boiler works at Boone previous
to his removal from that city, and had
also been a member of the city council.
His health failed him and he came north
to this city where he engaged in business
and was doing well when he lost his eye
sight and was totally blind for about two
years. A surgical operation, however,
restored to him his sight some six
months ago. He died after a short ill-
ness, of heart disease. Mr. Rogan was a
kind hearted man, a good neighbor, and
a consistent Christian. He leaves a
wife, two daughters and four sons. De-
ceased was a native of Ireland and 53
years of age.

The Co-operative Farm.

J. P. McLaughlin, secretary of the co-
operative board of the Knights of Labor,
has the following to say of the Crow
Wing county co-operative farm to a re-
porter of the Press:

Several years ago a number of us, as
individuals, formed a land association
which was incorporated. We purchased
considerable land, and hoped to start a
co-operative colony some time. But it
was to be entirely distinct from the
organization of the K. of L. We never
got around to anything, however, and
finally these colonists came to us and
asked if they could use the land. We
told them to form their company and go
ahead, and they did so. But we guaran-
teed them no support, and had absolutely
no official connection with them. So when
they wrote a letter, announcing that
they intended to leave, I could do nothing
but let them go. I was not manager.
Young, I understand the affair, and
I was not at all sorry that he intended to
leave.

Richard Foote as Richard III.

Genius, like wisdom, is ever "justified
by her children," a truth which was
calculated to mind in Minneapolis during the
past week by the success of Mr. Richard
Foote in his impersonation of Richard
III. Following so closely upon the en-
gagement of those crowned kings of
tragedy, Booth & Barrett, and at a
marked disadvantage as to stage settings,
and support, Mr. Foote has won a clear
right to public recognition as an actor
"to the manner born"—a close, intel-
lectual student, upon whom the benison
of the sacred fire has beyond doubt
descended.—Minneapolis Tribune.

This excellent company will play a
week's engagement at Sleeper opera
house, commencing Saturday, Dec. 24th.
Prices have been placed within reach of
all. Reserved seats 50 cents, admission 35
cents and gallery 25 cents.

Rare Bargains.

I am now receiving some of my holi-
day goods and will make official prices
on some goods now in stock. The goods
are all first class and warranted as re-
presented. If you want the best bargains
you ever get in jewelry come and see
me in the next 40 days.

For Grand Larceny.

C. D. Herbert was this morning ar-
rested on the charge of grand larceny,
preferred by his wife; he is accused of
stealing a watch and chain and other
jewelry belonging to her. There has
been trouble between the two for some
time which resulted in their separating
yesterday.—Minneapolis Special.

Mr. Herbert formerly lived in Brainerd
and was proprietor of the saloon now
owned by Frost & Kelleher.

A later telegram says: Mr. C.
D. Herbert, who was arrested
Wednesday evening upon a war-
rant sworn out by his wife for
larceny, was released this morning,
his wife having withdrawn her
charges. It seems that the cause
of this affair was due to family
troubles. Wednesday afternoon
they separated. Mr. Herbert taking
with him his little boy. His wife
also wanted the boy, but he would
not release him. The boy accom-
panied his father to jail, and this
morning Mrs. Herbert appeared at
the jail, and the boy consented to
go with her, whereupon she with-
drew her charges and her husband
was discharged.
